VISION
Harlem School of the Arts (HSA) envisions a world where ALL children have access to a quality arts education, empowering them to become the creative thinkers and innovative leaders of tomorrow.

MISSION
Harlem School of the Arts enriches the lives of young people, their families, and the community through world-class training in and exposure to the arts across multiple disciplines in an environment that emphasizes rigorous training, stimulates creativity, builds self-confidence, and adds a dimension of beauty to their lives.

HISTORY
In 1964, internationally acclaimed concert soprano Dorothy Maynor, brought a gift to Harlem: her fervent belief that world-class training in the arts stimulates the child, strengthens the family and gives pride of ownership to a community. She opened Harlem School of the Arts in the basement of the St. James Presbyterian Church in Harlem at a time when the community suffered severe physical blight, high levels of poverty, and offered few cultural resources for its young people. From toddlers to adults, the students who came through its doors developed an invaluable sense of purpose and focus, whether or not they pursued professional careers in the arts.

In May of 1979, under the leadership of Maynor’s hand-picked successor, legendary opera singer Betty Allen, HSA opened its state-of-the-art 37,000 square foot, award-winning facility nestled at the base of historic Hamilton Heights. Along with the Studio Museum in Harlem, Dance Theatre of Harlem, The Schomburg Center for Research in Black Culture, and the Apollo Theater, HSA became one of the pioneering cultural institutions whose robust presence uptown became a linchpin of Harlem’s renewal.

In 2010, world-renowned musician, artist, and entrepreneur, Mr. Herb Alpert through his foundation made a significant contribution that helped stabilize the organization. In 2013, an additional gift by The Herb Alpert Foundation prompted the HSA complex being renamed to The Herb Alpert Center.

TODAY
Harlem School of the Arts, at The Herb Alpert Center, is thriving. It annually serves approximately 3,000 young people from across the greater New York Metro area. From its humble beginnings with 20 children taking piano lessons in the basement of St. James Presbyterian Church, HSA has blossomed into an extraordinary cultural institution that has served more than 55,000 students over the last 53 years, many of whom directly credit Harlem School of the Arts for having changed their lives.

From the bus stop, he sprinkled water on flowerbox. The water satisfied him. He stood Colby's Edward, gave Ed a wave, and drove off with Ed. "Nana, how come a dog like a cat?"
Harlem School of the Arts strongly believe in the benefits that exposure to the arts can provide during early childhood.

Children are naturally curious, and the arts are a great way to channel this curiosity. Exposure to the arts is not only a way for children to express themselves, but it has also been shown to improve motor skills, language development, decision-making, and cultural awareness.

We offer a variety of classes for children ages 0-5 from to foster this kind of creative thinking.

HSA MUSIC
HSA Music introduces students to the irresistible force that is music. The goal of the Music Department is to equip each individual with the tools to be a proficient musician, while fostering their creative spirit. Whether laying a foundation for the beginner or helping a more advanced musician refine their technique, our faculty offers a rigorous introduction to the discipline of making music while instilling in each student a love of music.

At HSA we offer private and group instruction in strings, woodwinds, brass, piano, guitar, percussion and voice. In addition to a long tradition of excellence in Western classical music, our faculty also offers instruction in jazz and a variety of folk and popular music. We encourage all students taking private lessons to participate in an ensemble and take a theory class. Ensemble and group experience offers the joy of creating music with others, encourages a cooperative work ethic, and allows students to enhance their overall technique.

**HSA Theatre** offers a wide ranging menu of classes led by working professionals. Classes are offered for ages 3 through adult, for all levels of interest, from the curious beginner through the young professional. Our more advanced theatrical work emphasizes performance based training in Musical Theatre, Physical Theatre/Improvisation and Ensemble work. Performance opportunities exist for all students through participation in our main stage season, open classes and special presentations. Reflecting recent technical upgrades in our theatre we will be offering new classes in lighting, scenic and sound design.

The study of theatre and acting provides multi-faceted benefits in improving speech, critical thinking, and confidence in public situations. Whether you are exploring theatre for the first time as a hobby or preparing for professional schools and work, HSA Theatre has something to offer you.

EARLY CHILDHOOD ACTORS

Young children respond with joy and energy to creative play, drama and storytelling. With the encouragement of their instructors they generate imaginative scenarios and learn to interact with others their age, thereby providing group opportunities to develop social and language skills.

- Listening, responding, taking turns and working cooperatively in a group.
- Recognizing, re-creating, identifying, differentiating and sequencing basic dramatic elements.
- Expressing and creating elements of theater through creative play.

Kings, Queens, Magic and Monsters Ages 3-4
Pre-K actors adventure through the world of William Shakespeare. By exploring the story, characters, themes and language of THE TEMPEST, young actors will develop diverse acting skills and build a Shakespearean performance of their own.

Creative Play Ages 3-5
Children will be introduced to theatre through creative play. Through play and the use of imagination our little actors will use storytelling as a way to explore music, movement and dramatic structure. Students will use their bodies and voices to develop characters and take their characters through a journey of self-exploration.

ELEMENTARY SCHOOL ACTORS

As emergent readers, theater activities provide an opportunity for children to demonstrate physically and vocally their understanding of character, conflict and action. They also become skilled in memorization, allowing them to use scripted materials in activities and performances. Theater develops physical and vocal skills, which encourages confidence and creative thinking.

- Cooperating, planning, and respecting others’ opinions.
- Interpreting, comparing, and analyzing works of theater and introductory dramatic literature.
- Personal and artistic choices in creating theater and releasing impulses and language.

Improv FUN-damentals Ages 5-7
Students will explore the key elements of both long and short form improvisation. The children will play numerous improv games which will serve to develop and enhance their public-speaking, social and team-building skills. This class will be conducted in a non-judgmental environment where the students will build confidence, make friends and most importantly, have fun!

Creative Drama: Broadway and Beyond Ages 8-12
An introduction into the world of Broadway! Get ready to enter into the world of mime, rhythm, sound movement, and improvisation. Popular classic Broadway stories will leave our young actors feeling inspired, creative spontaneous and imaginative!
Acting Techniques Ages 8-12
This audition-based class will focus on a system of exercises developed by Sanford Meisner including: improvisation, repetition, independent activity, and scene work. The technique creates a more specific, skilled, and authentic actor with an organic, spontaneous, and disciplined instrument.

Beginning TV: Commercial Acting Ages 8-18
Whether your young actor is interested in commercials, television, big screen, or the Broadway stage, this course provides training, exposure, and quality audition technique classes to prepare students for their first steps into this highly competitive field.

MIDDLE SCHOOL ACTORS
Students at this age are increasingly concerned with meaning and message, both personal and social, and are beginning to think in more independent ways. Rapid emotional and physical changes at this age present both challenges and opportunities for the growth of skills and personal expression in theater. Students are capable of focused work in various techniques and styles of theater, and enjoy the “safe space” that a structured and defined challenge provides.

• Building confidence and a defined sense of self, trust among peers, working independently, and taking risks.
• Exploring different styles of theater and developing personal creative expression.

The Company (Pre-Prep) Ages 9-12
The Company is by audition only. This is an ensemble of students who have auditioned and are performance ready. The actors will rehearse and perform in a workshop production. Our Company actors are given the opportunity to display their talents in singing, acting and dance.

Intro to Stage Combat Ages 11-13
Techniques for unarmed combat in physical acting class. Stage Combat equips the actor with the techniques required to safely and artfully create the illusion of violence. The emphasis in the first semester is on hand-to-hand combat (falls, rolls, chokes, etc.) and in the second term weapons are introduced. The technique enables the actor to execute fight choreography with a strong theatrical reality applicable to both stage and film.

HIGH SCHOOL ACTORS
Acting for Film & TV Ages 13-18
An introduction to acting for television and film is explored. Students will work on camera, learn to quickly memorize scripts, and personally connect to the roles they are playing. Basic audition techniques for the camera will also be covered.

Production Techniques Ages 13-18
Students learn the many ins and outs of theatre production through observing and assisting with set production, lighting, sound design, costume design, and front and back of house management. Students gain important knowledge of professional performance terminology and etiquette as they participate in crew and technical assignments.

Dramatic Storytelling: Plays & Screenplays Ages 13-18
The course is an exploration of dramatic literature of the stage. Informed by the study of playwriting, screenwriting, poetry, and theatre practice, participants will develop and refine their own creative writing processes with the ultimate goal of authoring and producing a 7 to 10-minute work.

Classical Theatre Ages 13-18
This class is designed to give students training in a variety of acting and performance techniques for the classic stage, and to mobilize those skills towards the interpretation and workshopping of a Shakespeare play.

Film and Video Ages 11-18
Do you have a great idea for a movie or just want to learn how movies are made? Learn to write, direct, film and edit videos in this introduction to movie making. Cameras and filming equipment provided during class hours.

**Vocal Techniques for Actors** *Ages 13-18*
The voice is one of the most important tools for actors. This class introduces technique to explore the physical actions of speech, building skills in articulation and pronunciation for clarity and ease of expression.

**Speaking Voice for the Stage** *Ages 13-18*
This ensemble class examines the principles and practice of freeing the natural voice. Through exploration of resonance, vocal freedom, and articulation techniques, students will discover the natural breath, releasing vibrations of sound from the body, and opening the channel for sound to establish emotional and physical vocal presence on stage.

**THEATRE PRIVATE COACHING**
Available for children through adults, private coaching is designed to meet the individual needs of performers who are preparing for specific roles/auditions, preparing to audition for specialized performance arts high schools or universities, or working on specific issues of technique, speech and concentration.

FAQs

Q: How early can you start? Do you offer classes for toddlers? What about adults?
A: Group classes begin at age 2 depending on the discipline. The HSA Early Childhood program offers classes for children ages 2 to 4 years old. Registration is first come, first served, including classes available to adults in all four disciplines.

Q: How many weeks is a term and how long are classes?
A: HSA classes are offered in two terms; Fall and Spring. Classes generally last between 30 minutes to 2 hours, and students may take as many classes as they like during our school year!

Q: What do you offer for students who want to pursue art as a profession?
A: Students ages 12-18 interested in pursuing a career in the arts would benefit from HSA Prep, which provides intensive arts training to prepare students for a continued education in the arts.

Q: How will I know what level class my child should be taking?
A: Ages 2-6 require no assessment for classes; simply choose the class that is the right fit for your child’s age. For dance classes and private music lessons, each student will be given an assessment by the department to determine the appropriate placement level for each child.

Q: Does my child need to have his or her own instrument to take a class?
A: Yes. However, for those students who do not have access to an instrument, HSA can provide a list of stores that rent a variety of instruments.

Q: What do you use ticket revenue for? Does it support HSA?
A: HSA is a nonprofit organization with an operating budget of over $4 million. We receive $1.5 million in tuition, and the remaining 60% is subsidized by generous individual donations and grants, just like other nonprofit organizations. While ticket revenue is helpful, it only covers a small fraction of the production costs.

Q: Why does HSA do performances, concerts and exhibitions?
A: HSA’s mission is to enrich the lives of children and part of that enrichment is performing and presenting opportunities for young people. These are also moments for HSA students and artists to shine.

Q: Can I volunteer to help HSA?
A: Absolutely! As a nonprofit organization, we’re always looking for volunteers and interns to help our School run at its best. If you would like to make a difference and join our network of volunteers, please call Lynne Toye, Chief Administrative Officer, at (212) 926-4100 x303 or email jobs@HSAnyc.org.

Q: ¿Hablan español?
A: HSA tiene la capacidad de traducir al español. Para otros idiomas (por ejemplo, francés, criollo haitiano, japonés, chino, etc.), necesitamos una solicitud por adelantado. Comuníquese con la oficina de la registradora al teléfono: (212) 926-4100, extensión 324.
